

RawMat2023: Extended deadline for abstract submission

Dear RawMat2023 Conference Participants,

We are excited to announce that due to the overwhelming interest in the Conference, and numerous requests from authors, we have decided to **extend the deadline** for abstract submission to **May 31st, 2023**.

We understand that many of you have professional commitments and deadlines to meet, and we want to provide you with sufficient time to prepare and submit your abstracts. The extended deadline will allow you to thoroughly develop your research and submit your abstracts with confidence.

We encourage all authors to take advantage of this extension and submit their abstracts as early as possible. This will provide our review committee with sufficient time to evaluate each submission thoroughly.

Authors are invited to submit their abstracts through the RawMat2023 website using the Microsoft CMT conference management system. For abstracts submission and guidelines please click this button:

[Abstract Submission](#)

Don't forget to take advantage of the early bird registration ending on May 31st, 2023.
